SUBJECT: PREMIUM, PROFESSIONAL PAINTING & SURFACE FINISHING SOLUTIONS

Dear Sir / Madam,

Greetings from **Star Colours Coating!**

We take great pleasure in introducing ourselves as a trusted name in **Professional Painting & Surface Coating Solutions**, with a strong commitment to **quality, creativity, and customer satisfaction**.

Star Colours Coating brings over **21 years** of industry experience in the field of professional painting and surface finishes, offering clients premium finishes, durable solutions, and modern application techniques tailored to their project needs. **We are driven by a passion for excellence and innovation in every brushstroke.**

Our services span across a wide spectrum, including:

- Satin Metal Metallic Coatings
- Special Effects for Furniture Surfaces (ICA)
- PU(Polyurethane) Coating
- Lamination (Colours & White) Coating
- Interior & Exterior Painting (Residential, Commercial & Industrial.)
- Decorative Textured Finishes for Wall, Ceiling, Surfaces.
- Protective Epoxy & Polishing
- Wood Stains
- Surface Preparation & Restoration
- Colours Consultations!

Our team of skilled professionals ensures meticulous surface preparation, precision application, and strict quality control, delivering aesthetic excellence and long-lasting performance.

— ensuring a seamless experience from start to finish.

We are proud to have served an array of clients in Premium & **LUXURY RESIDENCES**, Hospitality, Healthcare, Retail Spaces, Corporates, Manufacturing Units.

At Star Colours Coating, WE DON'T JUST PAINT WALLS — WE BRING SPACES TO LIFE.

We welcome the opportunity to collaborate with you on your upcoming projects and assure you of our best services.

We would be delighted to connect with you, understand your vision, and provide the ideal solution tailored to your requirements.

Please feel free to reach out to us for site inspections, quotations, or technical advice.

Looking forward to a creative collaboration.

Warm Regards,

For **Star Colours Coating**

(Kamruddin Khan)

STAR COLOURS COATING

FINISHING WITH PERFECTION

● LAMINATION COATING ● PU COATING ● PREMIUM WOOD FINISHING ● LUXURY PAINTING ● TEXTURE DESIGNS

❖ Step-by-Step Coating Process

1. **Surface Preparation & Filler Application**
 - Filler Putty is applied precisely to conceal nail holes and minor surface imperfections.
2. **Gap Sealing with Aerolite**
 - A coat of Aerolite compound is applied to seal any gaps between wooden panels, ensuring uniformity and strength.
3. **Sanding for Levelling**
 - The Aerolite layer is carefully sanded to achieve a smooth and level surface, ready for further coating.
4. **Epoxy Base Coat Application**
 - A single coat of Epoxy is applied to prime the surface and enhance adhesion for the upcoming layers.
5. **First Coat – Filler Resin Application**
 - Filler Resin Chemical is sprayed/coated to provide a dense, sealed base and smooth grain filling.
6. **Sanding of Filler Resin**
 - Post drying, the surface is thoroughly sanded to refine the texture and eliminate unevenness.
7. **Second Coat of Filler Resin**
 - A second filler application ensures added depth and pore filling, enhancing the uniformity.
8. **Precision Sanding**
 - Again, the surface is sanded to perfection to prepare for primer coats.
9. **Primer Coat – PS White**
 - Application of PS White Primer creates a consistent white base, crucial for optimal topcoat visibility and depth.
10. **Touch-up Processing & Sanding**
 - Meticulous touch-ups and fine sanding are performed to address minor flaws and edge sharpness.
11. **First Color Base Coat (PU)**
 - A premium PU Color Coat is applied as the first base layer, reflecting the desired tone and richness.
12. **Final Touch-up & Finishing Prep**
 - Final sanding and corrections are done for ultra-smooth readiness prior to the final top layer.
13. **Final PU Color Coat (ICA Italy)**
 - A luxurious ICA PU Color Coat is applied to deliver vibrant, deep, and enduring color quality.
14. **Top Coat – Acrylic PU**
 - The process is completed with a high-performance Acrylic PU Top Coat, ensuring maximum protection, durability, and a silky-smooth premium finish.

Why Choose Us?

- ✓ Precision-Driven Execution
- ✓ Use of Branded Chemicals & Coatings {ICA(Italy), Asian paints, etc.}
- ✓ Experienced Team for Flawless Application
- ✓ End-to-End Coordination with Designers & Architects
- ✓ Premium Finish That Reflects True Craftsmanship
